Hello [REDACTED] If you would send in a payment for the amount requested, the documents would be in date order and redacted if necessary. I am not sure about how the documents appear but if they are having formatting issues, I am not sure that we could fix that. ABC's Public Records Department would ensure that you receive the best copies possible but if they are not available we can only produce what we have.

Sincerely,

Constance Rubio
Legal Analyst

Thanks for the info! Can you please start looking into how to export native format emails from your email system as required by law, because many of these are printed illegibly due to email client formatting issues. Also they're out of order and I can't sort them.
